

## February 2009 News

**NEW PRODUCTS:** You can now register with our site and use the log in feature. This will give you access to your order history and shipping addresses, and other features to come. We have new products coming in from Mehron that will be in stock later this month. We will be carrying the popular Pro-Face No Sweat, the fabulous new L.I.P Color Palettes, and Touch-Up™ Matte Finishing Anti-Shine. On the FX side: We are now the exclusive distributors of Trauma-Sil injury simulations. These ready-made silicone prosthetics and body parts are so fabulously realistic to the eye, and are designed with the feel and articulation of real life battlefield and civilian mass casualty traumas. Trauma-Sil is fast becoming the leading manufacturer of silicone injury simulations and we are proud to be the distributors for this fantastic product line. Look for the roll-out later this month in the New Products section.

**FILM & TV NEWS:** We will be posting our media list shortly that lists the magazines, television shows, and movies where our products have been featured or used in. We are excited about the growing number of our Hollywood Celebrity clients that have discovered our Natural Born Cosmetics line along with the industry favorites we carry.

**MAKEUP PRODUCT EDUCATION:** Look for more new articles to be posted in the Learning Center soon. Each month in future newsletters we will be highlighting some of our best selling products so you can become more familiar with them.

**WINTER ORDER SHIPMENTS:** This time of year the weather starts to plunge to temperatures below freezing. With cold weather comes the special shipping needs with some products that are extremely sensitive freezing and rendered unusable. Packages shipped during this season and then left in shipping warehouses or delivery trucks over the weekend can cause products to freeze and containers to crack or break.

UPS and The Postal System considers freezing conditions as an "Act of Nature" and will not honor insurance claims for frozen, or damaged product and packaging as a result of freezing. Certain skin care products, adhesives, silicones, latex, and some other liquid products are extremely sensitive to freezing. We strongly advise these purchases be shipped USPS Priority, Express or UPS Overnight Saver to expedite your packages and avoid the long delays in a cold warehouse or delivery truck. We always suggest that you stock up on quantities in advance of the freezing weather to avoid shipping during this time and to get you through the season.

Please keep in mind that since Paint and Powder Cosmetics cannot control the length of time a package will be subjected freezing temperatures once it leaves our shipping department. We are not responsible for replacing frozen or damaged products from freezing.

We always look forward to serving our customers with the best products and outstanding customer service on the internet. Thank you for shopping with us, we appreciate your business!
